Rating (AUDIT) REPORTS

Rating (audit) report is recommended for making decision on long-term strategic partnership and high value deals, where a standard report is not enough.

It represents a mini audit of a company prepared after a scheduled visit that our specialist pays to the company's business location. The report is concluded by assessment of company's performance and assignment of credit rating and credit limit. It is also possible to include your special questions or areas of interest.

The report will include general information (registration data, contact data, shareholders, staff, business line, business rivals, market position), information about clients and suppliers, special questions (for example own and rented assets, judicial and arbitral proceedings, claims of tax authorities), visual observation during the visit (photos), financial statements for the last 3 periods, financial analysis and conclusion.

You can visit your partner yourself? Yes, for sure, but it is an independent and local specialist judgement that matters. We do not only look through the financial data of the company, but we also use our experience and knowledge of the market and local environment, and during visit to company's premises we are attentive to even such details on whether the printer is dusty or whether the phones are ringing.

The report size is 30-35 pages. **Want a sample? Please just inform.**

MONITORING

Bad news? Well, it happens, but be the first to know

Precise. Convenient. Simply takes your headache away.

One day your partner may go bankrupt without telling you. Make sure you get the notification of company's official status change on time and ensure your ability to respond quickly to the problems encountered.

Besides change of company's official status, it is also possible to monitor the change of shareholders, management, legal address and other data. The monitoring works as simple as that – you provide the list of customers to monitor and name the positions you'd like to be included in the monitoring, and you will be receiving email notification if anything happens.

You can monitor yourself? Yes, but you would need to make sure you check all the necessary local information sources, conduct the check as often as necessary, and have enough knowledge of local environment to interpret the information found correctly. Be wise and avoid the risks, let us help you.

CUSTOM QUESTIONS & SPECIAL INFORMATION

Have anything specific in mind? Just ask us

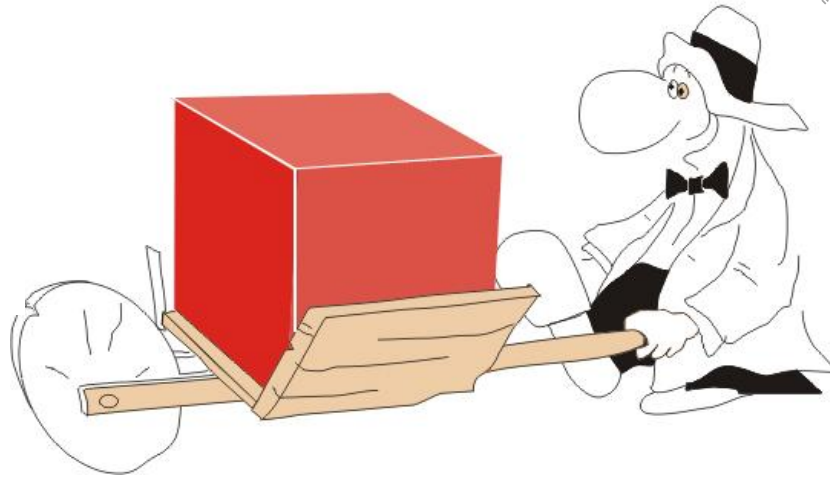

Maybe you need to obtain a hard copy of company's register extract? Or maybe you need to know if the company of your request is a member of the group and it has shareholder-related companies?

You name it, we investigate.

DEBT RECOVERY

IGK debt collection is used by all world leading credit insurers.

PRE-LEGAL

Why us?

Fair Approach

Our fees on pre-legal collection are charged on the cost-effective principle of No Collection No Fee, there are no registration fees or hidden charges.

Unique Tool – Credit Limit Cancellation

We have the ability to influence on debtor's future business that none of other collection agencies have. Notice of actual debt presence and 'No credit term to be granted' & Credit limit '0' is to be assigned to the debtor and this information is provided to the 70% of the credit insurance companies & banking institutions market and big to small businesses in multiple countries worldwide, which makes it hard for the debtor to buy goods or obtain services on a deferred payment basis, or get any bank financing.

Strong Negotiation Skills

The collection procedure is performed through the well-known actions: phone calls, letters, e-mails, and, by extra request, meetings with the debtor, visits to the address / address trace. However, the quality of these actions and the trained and well-organized staff is what really matters and makes the usual tools showing great results.

Local Presence

IGK collection team members that are located at the debtor's place of residence speak the local language and belong to the local society, which is possible due to IGK broad local offices network presence.

Detective Approach

The trace of the company, which might be a challenge too, is being performed by the employees trained by the credit information & investigation department, which allows us reducing a number of non-traced companies to a minimum. The use of the background information gathered by IGK as an information agency helps providing a unique overview of the debtor's situation that helps choosing the right approach.

You can collect yourself? Yes, for sure, but it is not your main business line, it's ours. We work with debtors every day, so let us help you to have faster and better results and save your money and time.

Out of court collection takes 3 to 6 months in average, but as it is our money and time invested, we are just as determined as you to have fastest possible result. **Want a consultation on your case (debtor)? Please inform.**

Why us?

Free of Charge Preliminary Check

Before offering to proceed with a lawsuit, we make a free of charge preliminary legal assessment of the case and we carefully evaluate both the chances to win the court and the chances to actually recover the money afterwards.

Debtor Solvency Check

The client may be offered ordering a credit information report on the debtor which would help analyzing all the necessary information regarding debtor's current overall and financial state to avoid wasting money on ineffective actions.

Fixed Charge

Along with the thorough case legal examination the client is being given the complete estimate of legal costs including all possible charges during the procedure, so the client can make a weighted decision and be sure the overall costs won't exceed the calculated amount.

Focus on International Deals

Our team of lawyers has solid experience in international deals and knows all the ways to help international clients with their claims and avoid problems with documents, time lines, and necessary arrangements.

Experience, Success and Accuracy

We have broad experience in courts and we are successful. But we haven't got used to it and we take every new case just as seriously and we make sure all is done correctly, cleverly and on time. We also care that our clients are duly informed on case progress.
